- 1. In serial number 6, 'Each Class of Goods' means a broad category of goods which are cleared/sold from factory. For example, for a pharmaceutical unit, all types of tablets, capsules and syrup will be regarded as different classes of goods
- 2. In serial number 7, 'Main machineries/plant' means the machineries/plant producing the final product or intermediate product. For example, for a factory producing steel bar from iron ore, the kiln (used for making sponge iron), furnace (used for making ingot) and rolling mill (used for making steel bar) would be regarded as the main machinery/plant.
- 3. Where the excise duty is levied at specific rate, the same quantity measurement code as applicable for payment of duty shall be used for providing installed capacity.
