

GST and JOHNNY- UPDATE No.22

This papa: -

Due to this lockdown period of 21 days I have dispatched my goods from the factory premises and now the goods are stuck in between as the movement has been restricted and I am facing certain issues where my goods have been stuck in between even at the state boundaries, and even some goods are not able to unload due to the lockdown and the e-way bill has also got expired.

We could understand the current situation the world is going through due to the COVID-19 Pandemic.

During this tough time, though the CBIC chairman has come out with the clarification that taxpayer should be dealt with empathy, yet department should come with a clarification to give relief to the taxpayers at large whose goods are stuck in transit.

An early clarification regarding these urgent issues would be highly appreciated.

We hope that impact of COVID-19 should not last longer and our taxpayer's urgent compliance burden must be relaxed to give them a sign of relief.
