

GST and JOHNNY- UPDATE No.71

JOHNNY
JOHNNY!!

Yes, Papa!

Have you applied for
the amendment in
registration?

Yes, papa but the
application is getting
rejected again-n-
again

What's the
issue?

This papa: -We have raised a lot of concerns with respect to the issues faced by the taxpayers on the GSTN portal from time to time in our past 70 updates released so far.

One such problematic situation was faced while applying for the amendment in the registration regarding insertion of the additional place of business in the said registration certificate. At the instance the documents/proof pertaining to the additional place of business are not required to be attached while applying for the amendment.

After the amendment application is successfully filed, the department authority issues an SCN pointing out the authentication of place added. This is an irony in itself wherein portal requirements are not matching with the requirements of departmental authorities.

The innocent taxpayer in response to SCN submitted a valid proof of the additional place but department rejected the proof with no reason quoted.

When tried to contact to the concerned authority, the departmental officers had no clue about whom such application is transferred and who has issued such rejection order.

In all this process the law-abiding taxpayer suffers unnecessarily and his compliance for amending the registration certificate is neglected and rejected on the grounds which stand nowhere. An amendment in GST portal or proper allocation of case to single officer or conduct of proper hearing before rejecting any application can be possible solutions to avoid undue stress.
